RAHUL MANE

Pune, India | +91-9112130154 | manerahul99999@gmail.com | linkedin.com/in/rahulmane | github.com/rahulmane

SUMMARY

Data Analyst with 2+ years of experience turning raw data into business decisions using SQL, Python, and Power BI (DAX, Power Query). Translates business requirements into analytical solutions and communicates insights to non-technical stakeholders through dashboards. Track record of automating reporting, speeding up data retrieval, and improving campaign performance through customer segmentation. Collaborates with business, marketing, and engineering teams.

SKILLS

BI & Visualization: Power BI (DAX, Power Query, Dashboards, KPI Reporting), Tableau, Advanced Excel (Pivot Tables, VLOOKUP)
Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Hypothesis Testing, A/B Testing, RFM Segmentation, Customer Segmentation, Churn Analysis, Data Modeling
Languages & Databases: SQL (MySQL, SQL Server, PostgreSQL, SQLite), Python (Pandas, NumPy, Matplotlib, Seaborn), R
Data Engineering: ETL/ELT, Data Warehousing, Database Optimization, REST APIs
Machine Learning: Scikit-learn (Regression, Classification, K-means Clustering), TensorFlow, OpenCV
Tools & Methods: Git, Jupyter Notebook, VS Code, Agile, Scrum, CRISP-DM

WORK EXPERIENCE

Data Analyst | Blueroad Technologies Pvt. Ltd., Pune, India Feb 2024 – Present

- Designed and executed **complex SQL queries** (joins, subqueries, CTEs, window functions) to extract, transform, and validate data from relational databases.
- Analyzed and processed **500K+ structured records** using Python (Pandas, NumPy) and Excel to identify **business trends, patterns, and performance gaps**.
- Developed **interactive Power BI dashboards** using DAX and data modeling to monitor KPIs, operational metrics, and business performance.
- Automated recurring reports and data pipelines, **reducing manual effort by 40%** and improving data accuracy and turnaround time.
- Supported weekly and ad-hoc reporting for 10+ business and operations stakeholders to understand **business requirements** and deliver **insight-driven solutions**.
- Performed **ad-hoc analysis** to answer stakeholder queries and support decision-making processes.
- Utilized **Advanced Excel** (Pivot Tables, Power Query, VLOOKUP, formulas) for detailed reporting and analysis.

Business Impact:

- Improved reporting efficiency by **40%** through **automation and optimized workflows**.
- Reduced data inconsistencies by **30%** via improved validation and **ETL processes**.
- Enabled leadership to track **10+ KPIs** in real time, improving visibility and operational decision support.

Web Developer Intern | TechnoCipher IT Solutions, Pune, India Jul 2023 – Jan 2024

- Launched an e-commerce platform serving 1,500+ users with 99.9% uptime and secure authentication
- Collaborated with the backend team on a normalized MySQL schema with strategic indexing, cutting page load time by 40%
- Developed a subscription system for 70+ categories, increasing vendor onboarding by 35%

PROJECTS

Enterprise Sales Analytics | Power BI, DAX, SQL github.com/rahulmane

- Cleaned and transformed 50,000+ records; wrote 25+ DAX measures (YoY growth, CLTV, forecasting)
- Delivered dashboards that identified $200K+ in revenue opportunities; automated data pipelines, reducing manual work by 90%

Transportation Dashboard | Python, Tableau, SQL github.com/rahulmane

- Explored 100,000+ booking records with hypothesis testing, driving a 12% drop in cancellations and an 18% rise in on-time deliveries
- Created interactive Tableau dashboards to track and validate the reported improvements

Customer Churn & Revenue Impact Analysis | SQL, Python, Pandas, NumPy, Matplotlib, Seaborn, SQLite

- Built an end-to-end churn analytics pipeline integrating customer, subscription, and support datasets using SQL and Python.
- Performed data cleaning, feature engineering, EDA, and customer segmentation to identify high-risk churn cohorts.
- Developed 20+ KPIs (churn rate, retention rate, ARPU, tenure, revenue at risk, CLTV impact) and analyzed churn drivers across plans, contracts, geography, and support interactions.
- Delivered retention recommendations covering contract migration, pricing, and customer support.

AI Healthcare Analytics | Python, TensorFlow, OpenCV github.com/rahulmane

- Deployed a CNN-based emotion detection model (87% accuracy on 5,000+ images) and built a patient sentiment dashboard showing real-time mood trends

EDUCATION

B.Tech in Computer Engineering | Vishwakarma University, Pune, India Aug 2019 – Jun 2023
CGPA: 8.01 / 10

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate (PL-300) | IBM Business Analytics (2024) | Google Analytics IQ (2024) | Python for DS & ML (2023) | Microsoft Excel (2023)
